

Announcing a breakthrough in automatic technology

INTRODUCING NEW

Diskeeper[®] 2007

Enhancing File System Performance
— Automatically™

Diskeeper 2007 marks the dawn of the first ever truly automatic software of its kind. As automatically as the sun rising, with Diskeeper 2007 deployed your systems will run faster. Through the use of brand-new InvisiTasking™ technology, Diskeeper eliminates potential problems on the go, IN REAL TIME without affecting system resources or intruding on system demands.

Moving beyond the concept of "Set It and Forget It,"™ Diskeeper 2007 represents a quantum leap in system performance and reliability. Simply install the software — Diskeeper takes care of the rest.

- **NEW! InvisiTasking Technology** — an advanced breakthrough technology that intelligently enhances operating system multitasking to ensure continual maximum system performance and zero resource conflict even during periods of highest demand. InvisiTasking is the foundation for Diskeeper to eliminate fragmentation in real time without affecting system resources or intruding on system demands.
- **NEW! I-FAAST™ 2.0** (Intelligent File Access Acceleration Sequencing Technology) dramatically increases file access by up to 80% above and beyond the improvement from defragmentation alone.

- **NEW! Real-time defragmentation** automatically handles fragmentation as it occurs, providing maximum system performance at all times!
- **NEW! Terabyte Volume Engine™ 2.0** — Powerful defragmentation for high capacity & high traffic servers with disk volumes containing hundreds of thousands to millions of files (e.g. NAS, RAID, and SAN). Also allows unobtrusive and thorough free space consolidation on busy 24/7 servers.
- **EXCLUSIVE! FragShield™** dynamically prevents fragmentation of critical system files, maintaining system stability and reliability.
- **EXCLUSIVE! Automatic online directory consolidation** boosts anti-virus scans and back-up speed.

Every system will benefit from Diskeeper 2007. A site-wide Diskeeper installation will improve performance and reliability on all your systems.

Experience the dawning of a new era in automatic system performance and reliability — **get Diskeeper 2007 now!**

"I am absolutely, fantastically and completely elated with the value, performance and ROI I have received from my Diskeeper software purchase. Diskeeper paid for itself in less than a day!

I don't have to buy a new PC, thanks to Diskeeper. Diskeeper should be on everyone's machine. After using Diskeeper for a few minutes, my machine was twice as fast....just like it used to be and seems faster than ever before!!!

Keep in mind that I am a computer professional by trade...and therefore I appreciate the value of healthy computing. Diskeeper solved all my problems! Diskeeper's "Set It and Forget It!" mode is a life saver...and I'm not exaggerating!

Diskeeper ROCKS! And it is absolutely painless, worry-free, automatic and awesome!"

— Bill Hahn, Sr. Consulting Certified SW I/T Specialist for IBM

Diskeeper

Enhancing File System Performance
— Automatically 2007

Get optimum performance and reliability from every PC, laptop and server at your site

With the release of Diskeeper 2007, a new era has begun in the way IT Professionals will maintain their systems for optimum performance. For the first time ever, you can regain and maintain a blazingly fast level of performance on PCs, laptops and servers, and for the entire life of the system.

Diskeeper 2007 with InvisiTasking™ eliminates problems IN REAL TIME as they occur, without the need for scheduling and without EVER interfering with valuable system resources. Whether it's a small business or the largest corporate network, Diskeeper 2007 sets an entirely new standard in performance and reliability.

With Diskeeper 2007 there is never a need for scheduling or administrator supervision - just install and the software automatically takes care of the rest. It's really that simple. Get it now and your system will never be the same again!

- **NEW! InvisiTasking Technology** – an advanced breakthrough technology that intelligently enhances operating system multitasking to ensure continual maximum system performance and zero resource conflict even during periods of highest demand. InvisiTasking is the foundation for Diskeeper to eliminate fragmentation in real time without affecting system resources or intruding on system demands.
- **NEW! I-FAAST™ 2.0** (Intelligent File Access Acceleration Sequencing Technology) dramatically increases file access by up to 80% above and beyond the improvement from defragmentation alone.
- **NEW! Real-time defragmentation** automatically handles fragmentation as it occurs providing maximum system performance at all times!
- **NEW! Terabyte Volume Engine™ 2.0** – Powerful defragmentation for high capacity & high traffic servers with disk volumes containing hundreds of thousands to millions of files (e.g. NAS, RAID, and SAN). Also allows unobtrusive and thorough free space consolidation on busy 24/7 servers.
- **EXCLUSIVE! FragShield™** dynamically prevents fragmentation of critical system files, maintaining system stability and reliability.
- **EXCLUSIVE! Automatic online directory consolidation** boosts anti-virus scans and back-up speed.
- **NEW! Easy-to-use user interface** that provides more flexible, intuitive control and easy configuration, as well as reports on disk health, real time performance and fragmentation statistics.
- **EXCLUSIVE! Native 64 bit** operating system support.
- **EXCLUSIVE! Boot-Time Mode** safely performs Microsoft®-recommended defragmentation of critical system files.
- **EXCLUSIVE! Historical Reporting** tracks the progress of Diskeeper over time and displays cumulative defragmentation benefits.
- **EXCLUSIVE! Power Management for Laptops** prolongs battery life by suspending background defragmentation while on battery power.
- **NEW! Remote Installation and Management** with new policy-based management.

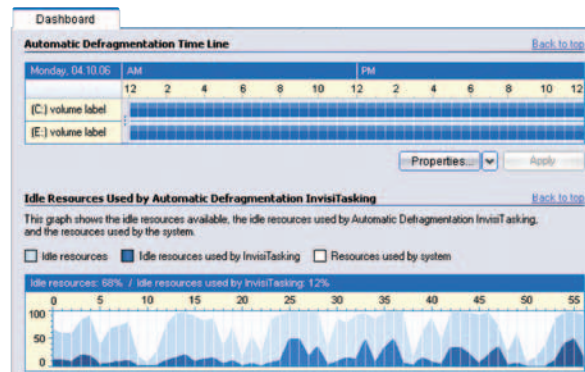

Buy Diskeeper now.

For best price and for volume licence discounts, contact your local reseller. To find a reseller near you, call

Volume licence, government and educational discounts available.

Easy-to-use interface shows how much speed and performance is gained by automatic defragmentation with Diskeeper.

"Diskeeper has for us, become the mainspring component within all our computers. Since installing and using Diskeeper our computers are much more reliable and faster. For us Diskeeper represents the unseen mechanic in the garage.

Diskeeper is right there silently making sure that stability in our machines does not let us down."

– Arthur Wray, Transmate, UK

Diskeeper 2007 editions:

Diskeeper 2007 Professional Saves costs and reduces help desk traffic by automatically enhancing the performance of desktops, laptops and workstations.

Diskeeper 2007 Pro Premier Provides advanced defragmentation technology to meet the needs of high-end workstations.

Diskeeper 2007 Server Optimizes reliability and speed, boosting server performance and reducing downtime.

Diskeeper 2007 EnterpriseServer Uses revolutionary technology to provide fast, thorough automatic defragmentation of enterprise-level and mission-critical servers, ensuring peak file system performance.

Diskeeper 2007 Administrator Provides complete centralized management of Diskeeper 2007 across your entire network.

30-DAY SATISFACTION GUARANTEE:

Buy Diskeeper 2007. If you're not totally satisfied, contact us within 30 days for a complete refund!
